The Board of Directors

The Board of Directors has the ultimate responsibility for the company's organization and administration and reaches decisions on strategic matters. In the financial year 2013, Beijer Electronics AB's Board of Directors had seven ordinary members appointed by the AGM.

Beijer Electronics has not set any specific age limit for Board members, nor any time limit for how long a Board member can serve on the Board of Directors. For detailed information on Board members, see the group's website and page 89.

The Role of the Chairman of the Board

Apart from leading the Board of Directors' work, the Chairman of the Board of Beijer Electronics AB continuously monitors progress by maintaining ongoing contact with the Chief Executive Officer on strategic matters. The Chairman of the Board represents the group on ownership-related matters.

The Board of Directors' Working Methods

The Board of Directors' work conforms to a yearly plan. Decisions are taken by the Board after an open discussion led by the Chairman. The Chief Financial Officer of Beijer Electronics AB, also Compliance Officer for the Code of Corporate Governance, serves as Secretary of the Board of Directors. Apart from the Board meeting following election, which is held coincident with the AGM, the Board normally meets five times per year (scheduled meetings). Extra meetings are convened when necessary. The Board of Directors' and Chief Executive Officer's rules of procedure are adopted yearly at the Board meeting following election. Each meeting follows an agenda, with

supporting documentation provided to Board members in good time before each Board meeting.

The Annual Accounts, proposed appropriation of profits and the financial statement are considered each financial year in the first scheduled Board meeting of the financial year. Coincident with this process, the company's Auditors submit a report to the Audit Committee regarding the Auditors' observations and judgments of the audit conducted. The Chief Executive Officer is assigned to submit Interim Reports approved by the Board of Directors at scheduled meetings later in the financial year. Each scheduled meeting also includes several other matters on its agenda, including a report on the current results of operations.

The Board of Directors appraises its own work and that of the Chief Executive Officer on an ongoing basis. Previously, a formal appraisal was conducted at the October Board meeting, led by the Chairman of the Board. This year, as in 2012, a decision was taken to delegate conducting in-depth interviews with all members to the Nomination Committee instead.

Work of the Board in 2013

In the financial year 2013, the Board of Directors held ten (10) Board meetings in addition to the Board meeting following election. Extensive contact was maintained between the company, the Chairman of the Board and other members between Board meetings. The company's Auditors attended the first Board meeting of the year, reporting their observations on the group's internal controls and financial statement. The Auditors met the Board of Directors' Audit Committee on one other occasion.

Remuneration Committee

The Remuneration Committee is appointed yearly by the Board of Directors. The Remuneration Committee consults on the Board of Directors' decisions on remuneration of the Chief Executive Officer, decides on remuneration to other senior managers and consults on proposals for potential incentive plans. The Remuneration Committee collects decision support data and views from other Board members, the CEO and CFO. The Committee also collects comparative decision support data externally. In 2013, the members of the Remuneration Committee were Anders Ilstam and Bert Åke Eriksson. In the financial year 2013, the Remuneration Committee held two (2) meetings where minutes were taken. No special remuneration for Committee work was paid. Guidelines for remunerating senior managers for the financial year 2014 will be approved at the AGM in April.

Audit Committee

All Board members serve on the Audit Committee apart from the Chief Executive Officer. The Chairman of the Board is also Chairman of the Audit Committee. No special remuneration for committee work was paid. The duty of the Committee is to analyze and discuss the company's risk management, controlling and internal controls, and financial reporting. The Committee maintained contact with the company's Auditors to discuss matters including the orientation and scope of audit work. The Audit Committee has adopted guidelines

for other services apart from auditing the company can purchase from the company's auditors. The complete guidelines are available at the company's website.

Remuneration to the Board and Management in 2013

In 2013 the Chief Executive Officer of the parent company, also President of the group, and other senior managers drew basic salary and other benefits that are reported in Note 7, page 64–65. In the table, other senior managers mean the nine people that made up group management in 2013 alongside the Chief Executive Officer.

Remuneration to the CEO

Apart from contracted basic salary, the Chief Executive Officer is also entitled to performance-related pay. Performance-related pay is based on the group's operating profit and is a maximum of six months' salary. Pension and other customary benefits like company car are additional. Each year, 35% of gross salary including bonus is provisioned as pension assurance for the CEO. This pension is defined contribution and becomes payable at age 65. According to agreement, the CEO has a notice period from the company's side of 18 months, which cannot be claimed for termination initiated by the CEO. The notice period from the Chief Executive Officer's side is six months. No other remuneration upon termination has been agreed.

Remuneration to Other Senior Managers

Other senior managers have basic salary with a performance-related component. The performance-related component is based partly on the group's and partly on each business area's operating profit and sales growth. Yearly performance-related pay is a maximum of six months' salary. Other senior managers have defined contribution pension agreements on market terms. Other customary benefits like company cars are additional. Maximum notice periods of 12 months for termination from the company's side have been agreed for other senior managers. This applies to all apart from one, who has a six month notice period and nine months' severance pay on termination from the company's side.

Incentive Plans

The purpose of incentive plans is to promote senior management's commitment to the group's progress and thus increase value for the group's shareholders. In 2008–2009, senior managers were offered the opportunity to acquire warrants. This plan has two series of options, of 90,000 in each series. The warrants are issued on market terms calculated according to the Black & Scholes formula, and have terms of three and five years respectively. The first series expired in May 2011, and the second expired in May 2013. The original subscription prices were 175.50 SEK and 182.50 SEK respectively. Due to the split executed in 2011, the subscription price and number of shares each option confers entitlement to was restated for the subscription period in May 2013.

49% of the warrants that expired in May 2013 were utilized, meaning that the company raised SEK 8,093,818 in equity and the number of shares increased by 133,122.

With the support of the guidelines for remunerating senior managers resolved by the AGM, an incentive program for 30 key employees of the group was implemented in 2011. This program involves 3% of the company's profit after tax being provisioned for payment after three years pro rata with the participants' salary at the time of provisioning. The condition for provisioning in 2013 is minimum earnings per share of 7.23 SEK, which the group did not achieve.

Directors' Fees

The Directors' fees resolved by the AGM in April 2013 were 1,625,000 (1,250,000) SEK in 2013 and are allocated according to the table on page 87.

Management and Corporate Structure

The Chief Executive Officer is responsible for Beijer Electronics' ongoing administration, which covers all matters that are not reserved for the Board and administered by management. Instructions approved by the Board of Directors formalize the Chief Executive Officer's authorization to make decisions regarding investments, company acquisitions and divestments and finance matters. Group management consists of the Chief Executive Officer, three Regional Directors, two Business Area Directors of IDC and Automation, one Operations Director, the CFO, and HR and Business Development Directors. At present, the CEO also serves as Business Area Director of HMI Products, the largest business area.

Group management meetings are held regularly to discuss the group's strategic and operational progress and to monitor results of operations. For more information on the members of group management, see the group's website and page 91.

Business Areas

Beijer Electronics' operations are organized into three business areas. External reporting of the group's operations is divided into the following three business areas: Automation, HMI Products and IDC.

Internal Control over Financial Reporting

In tandem with adopting the Interim Report for the third quarter and annual Financial Statement, the company's Auditors report their observations from auditing and evaluating the company's internal controls. According to the Swedish Companies Act, the Board is responsible for internal controls. This responsibility includes issuing financial reports. The Board of Directors receives the reports and sets standards on their content and presentation to ensure quality each year. This implies that financial reporting should be expedient by

Control Environment, Risk Assessment and Control Structures

Beijer Electronics structures and organizes its operating activities proceeding from decentralized responsibility for profitability. The base of internal controls in a decentralized operation consists of a well-secured process intended to define targets and strategies for each business.

Defined decision-paths, authorizations and responsibilities are communicated through internal instructions, regulations and policies adopted by the Board of Directors. The group's primary financial controlling documents are the overarching 'Corporate Manual', a reporting manual and audit manual, including instructions for each financial statement. Beijer Electronics has an established control structure to manage the risks the Board and management consider significant to internal controls regarding the group's accounting organization.

Accounting managers at all levels play a key role in terms of integrity, skills and the ability to create the environment necessary to achieve transparent and accurate financial reporting. Another important overall control activity is the monthly update on results that is conducted via the internal reporting system, and analyzed and subject to comment in reports to the Board. Monitoring the results of operations includes reconciliation against previously determined targets, the most recent forecast and monitoring established key financial ratios.

In accordance with the Code's stipulations, the Board of Directors has taken a view on the need for a dedicated internal audit function, and concluded that at present, there is no need to create such resources within the Beijer Electronics group. Coincident with its evaluation of this need, the Board of Directors considered the group's size, risk outlook and the control functions already established within the group.

Financial Reporting and Information

Beijer Electronics' communication processes are intended to supply the market with relevant, reliable, accurate and up-to-date information on the group's progress and financial position.

Presentations and teleconferences for financial analysts, investors and the media are held on the day of publication of annual and quarterly reports. All reports, presentations and press releases are published on the group's website and intranet.

Beijer Electronics' Board of Directors has adopted an insider policy supplementing Swedish market abuse legislation. This policy states the rules on registering insiders, their holdings and reporting, alerts and prohibition of trading in financial instruments. The complete insider policy is available from the company's website.
